

ADIOS Ilham
Fullstack developer

adiosilham246@gmail.com | LinkedIn : ADIOS Ilham | Github: leelee222

Full Stack Developer in the final year of a Bachelor's degree at EPITECH, with solid experience in designing and developing web and mobile applications covering frontend, backend, and databases. Skilled in working on digital transformation projects, with strong knowledge of CI/CD pipelines, data management, and deployment environments.

SKILLS

Frontend & Mobile: ReactJS, Next.js, React Native, VueJS, HTML5, CSS3, Tailwind CSS, Figma, UI/UX Design

Backend: Node.js, Django, Flask, PHP, REST APIs

Databases: SQL Server, MySQL, MongoDB, PostgreSQL

DevOps & Security Tools: Git, Docker, Jenkins, Ansible, Kubernetes, GitHub Actions, GitLab CI/CD, Pentesting Tools, OSINT, Forensics

Other Tools & Practices: Microsoft Office Suite, Agile Methodologies

EDUCATION

EPITECH BENIN

Oct. 2022 – Present

Bachelor Degree in Computer Science

- Relevant Coursework: Data Structures, Algorithms, DevOps, Software Engineering, CyberSecurity

WORK EXPERIENCE & PROJECTS

YemalinTech

April. 2025 – Sept 2025

Web and Mobile Developer (Intern)

- Developed and maintained StationMap, a mobile application, and a web dashboard for a petroleum group (gas stations).
- Designed and implemented responsive, user-friendly UIs with Next.js (web) and React Native (mobile).
- Integrated backend APIs for real-time monitoring of stations and transactions.
- Improved UI/UX consistency across platforms, ensuring a smooth experience for staff and management.
- Participated in testing and debugging, enhancing overall stability and user satisfaction.

CDPAT Afrique

Aug. 2024 – Jan 2025

Fullstack Developer (Apprenticeship)

- Built a modern frontend interface with ReactJS and a robust backend system with Django for data management and business logic.
- Implemented CI/CD pipelines automating testing and deployment, improving delivery speed and quality.
- Designed and integrated RESTful APIs to enable smooth communication between services and databases.

EPITECH BENIN

Aug. 2024 – Jan 2025

AREA - Front-End Developer - ReactJS

- Design and development of the user interface for a task automation platform (IFTTT type) with ReactJS.
- Creation of dynamic forms and management of complex states with Redux to ensure a fluid user experience.
- Integration of a secure REST API (JWT) for data synchronization and user authentication.

LEADERSHIP & VOLUNTEERING EXPERIENCE

Digital literal & Cybersecurity trainer - EPITECH X IMPACT

July. 2024 – Aug. 2024

- Provided hands-on training in Microsoft Word, Excel, and PowerPoint, empowering participants with practical skills in digital security and data management.
- Engaged with participants through interactive sessions, fostering enthusiasm and curiosity.
